All of our photography products are top quality — the albums are leather, proof books are hardcover & professionally bound to last a lifetime. You may choose the photos you want for the album, proof book, prints, and high resolution files. There are also many other stylistic choices to be made such as album cover color, embossing, proof book cover image & background color. Once you choose the images for the album, (usually twice as many images as there are pages), we design the interior layout according to your style preferences, you then preview the interior layout and may request changes if desired or approve for ordering. We've refined our packages to include what we have found to be important to our clients, if your requirements are different please let us know so we can give you a custom quote based on your needs. We look forward to photographing your wedding ~ Chris & Jules Berggren.
